Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

Applicant's arguments, filed on 06/15/2011, with respect to claims 1, 3-12, 14-37 have been fully considered and are persuasive. The previous art rejection of claims 1, 3-12, 14-37 has been withdrawn. The examiner indicated an allowable subject matter, which is that "the universal session manager sending a communication to the remote server upon either customer timeout or logout." While this is still a valid allowable subject matter, the examiner found out during a routine allowance due diligence that the limitation "the universal session manager sending a communication to the remote server upon either customer timeout or logout," is not supported by the specification. And this has necessitated the 35 USC 112, first rejection below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3-12, 14-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed mentions that "the USM may typically update the last accessed times (LAT) and perform session timeouts based on this time

variable. Activity in the top navigation bar and/or direct links to the dispatch servlet updating the LAT variables, thus preventing the customer sessions from timing out and being automatically logged out. If a customer is active within the bottom frame for more than a predetermined amount of time, such as 30 minutes (and does not activate the USM), their session may be closed and they will be logged out (see paras 0069), but not that "the universal session manager sending a communication to the remote server upon either customer timeout or logout," as now implied. Clarification is required.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to OJO OYEBISI whose telephone number is (571)272-8298. The examiner can normally be reached on 8:30A.M-5:30P.M.
